CATWALK SYSTEM ASSEMBLY INSTRUCTIONS

Step #1

Open up the archive carriages to create space to mount the Catwalk Side Beam.

Step #2

Determine where you want to place the Catwalk Side Beam.

Step #3

Use two people to place the Catwalk Side Beam on the location you determined.

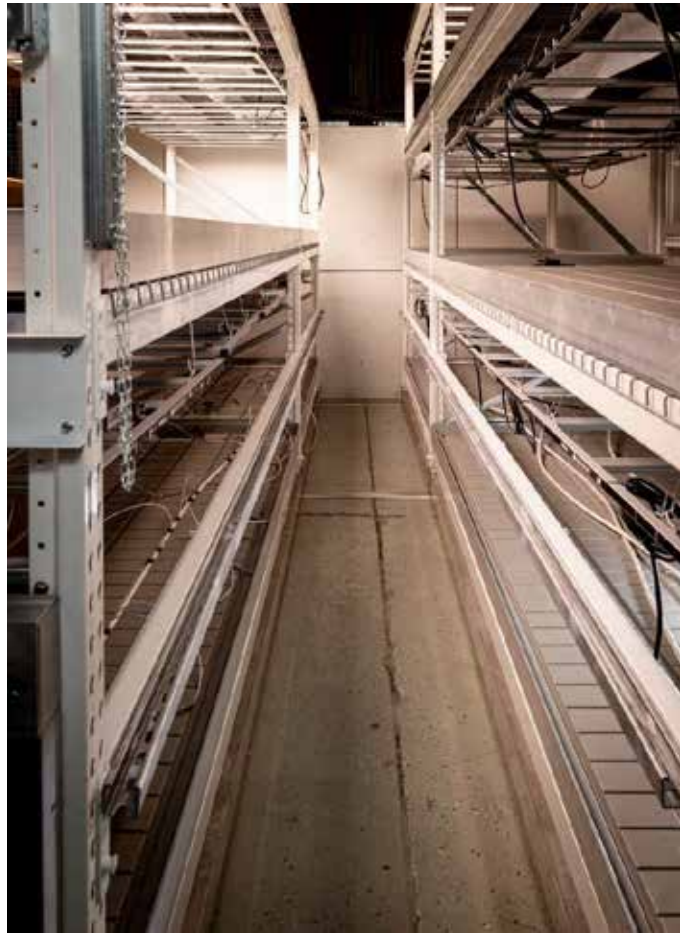

Step #4

Secure Catwalk Stoppers at far end of Catwalk Side Beams. Use a 9/16" socket to tighten the bolt.

Step #5

Once both sides of Catwalk Side Beams are installed, move archive carriages close together.

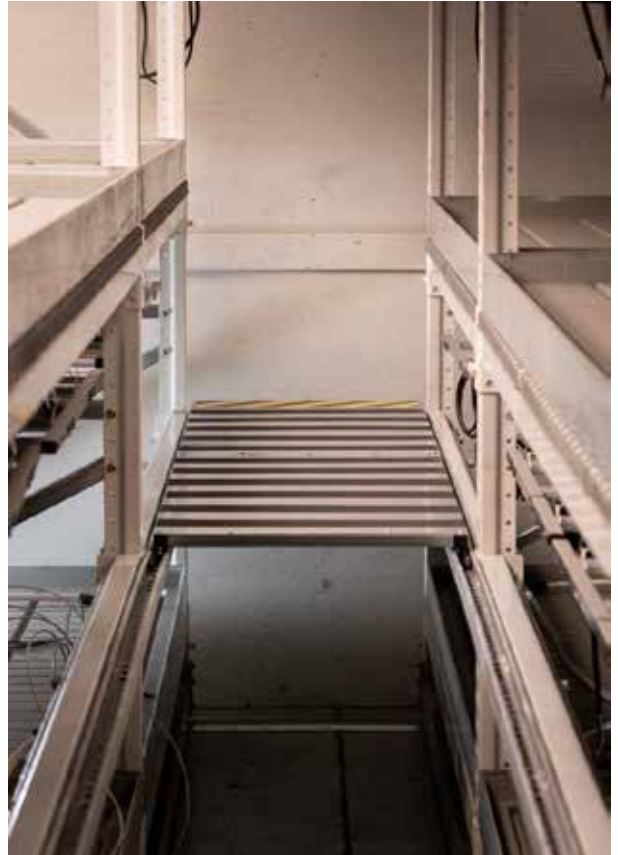

Step #6

Place Catwalk Platform End rollers inside the u-channels on the Catwalk Side Beams.

Step #7

Push Catwalk Platform to the stoppers.

Step #8

Continue to add Catwalk Platforms until the end.

Step #9

Slide one Catwalk Stopper on one Catwalk Side Beams until it is up against the Catwalk Platform. Repeat on other Catwalk Side Beam.

Step #10

Tighten Catwalk Stopper bolts with a 9/16" socket.

Step #11

Ensure that the platforms are secured and will not move prior to stepping up onto them.

Step #12

Step up onto Catwalk Platform*

*Ladder not included

Step #13

Attach Gate Behind you.
